## A SUPER ALL SERVICE PENCIL RIEDEL REPEATER

CARRIES SIX FEET OF LEAD  
A YEAR'S SUPPLY FOR THE  
AVERAGE USER

FEEDS AUTOMATICALLY LIKE  
A MACHINE GUN—ONE  
LEAD AFTER ANOTHER

The RIEDELL  
REPEATER  
*is different*

THE principle embodied in the RIEDELL REPEATER PENCIL is entirely new, unique and original.

Carries six feet of lead in 2½ in. lengths. You never have to bother removing cap.

The gripping and propelling of the lead is accomplished by means of a specially constructed clutch. Merely turn the tip one way and the lead is advanced to writing position—solidly gripped and will not turn while writing.

Turn the tip in the opposite direction and the lead is released, ready to be pushed back.

Beautifully made of DuPont Pyralin in attractive colors—Jade, Blue, Black, Burnt Orange, Yellow—with Gold or Silver tips.

Attractively priced at \$1.50 to \$4.25.  
At all first class stores.

DISCOUNTS TO DEALERS UPON APPLICATION

**GUARANTEED**  
**No parts to break**  
**or wear out. No**  
**springs to replace**

A PEN  
MEN BUY  
FOR  
THEMSELVES

THE SATURDAY EVENING POST  
December 8, 1926

BUYING A PEN  
"FOR KEEPS"

The man who appreciates a finely made motor car, an accurate watch, a perfectly balanced golf club, will quickly add The Carter Pen to his "favorites." And it will be "for keeps." The Carter Pen is built for long and faithful service. . . . You need not experiment before the Carter Pen has fitted to your hand. Then put this pen through every test you desire and you will buy it unless it gives you virtually a new conception of how well a fountain pen can be made, and how smoothly and easily it can write. . . . You may want a desk stand, as well as a pen for the pocket—speaking of pockets. The Carter Hocket Spring Tip is built in, grips firmly, releases instantly and keeps the pen safe, for you may want an attractive pen and pencil, set for her. All Carter Pens are tipped with

osmiridium—the most durable material known, and the smoothest. . . . Made in beautiful blue or green unbreakable Coralite. \$2.00 and \$3.00 pens are unconditionally guaranteed. If not carried by your dealer, please write us.

THE CARTER'S INK COMPANY  
Boston • New York • Montreal • Chicago

YOU KNOW THE INK

SEEK THE RIGHT INK for permanent writings and all business purposes use Blue-Black, Carter's Blue or Fountain Pen Ink. 2-ounce and 4-ounce bottles for permanent use are available. Use Blue and Carter's Blue for letters, cards, etc.

THE CARTER PEN

And the kind that is appreciated as a gift.

The Carter Pen is bought both for "looks" and for the service it will give. Free, tireless and smooth writing, made possible by the smooth OSMIRIDIUM POINT; the excellent balance and the even flow of ink from the point. Beautiful barrels and caps of Green, Blue and Red Coralite.

If you have not had the opportunity to see and to consider the Carter Line, it will be well worth your time. An illustrated catalog in colors will be sent if you request it. The Carter representative has full information on both sales and advertising that he will be glad to explain to you.

COLOR PAGES — COLLIER'S  
FULL PAGES — SAT. EVE. POST

This series of full pages in colors and black and white with unusual illustrations, is attracting wide attention and favorable comment. Frequent insertions during the best buying seasons is benefiting every Carter Pen dealer.

Send For Advertising Broadside

Let us send you an illustrated broadside showing the complete campaign—it will give you the full picture of what we are doing to make the public conscious of and favorable to the Carter Pen.

## PENS AND PENCILS

Chicago, Ill.—H. E. Waldron has returned from a trip to Minneapolis, where he conducted a sales conference for Sheaffer salesmen in the northwest territory.

Chicago, Ill.—Charles E. Mueller, of the pencil department, Joseph Dixon Crucible Company, took his family to New Rome, Ind., in August for the annual vacation.

Chicago, Ill.—John Udan, of Burnap-Mayer, Inc., Kansas City, Mo., visited the district office of Eberhard Faber in August. He was on his way to spend a vacation in Northern Wisconsin.

Chicago, Ill.—Hamilton W. Kendrick, manager in this territory for the American Lead Pencil Company, will make his first fall trip to the northwest states early in September.

Chicago, Ill.—The Swanberg Manufacturing Company has amended its charter, changing its name to the Johnson-Chelton Manufacturing Company. No change of product is involved.

Chicago, Ill.—Paul R. Mahoney has resigned as foreign sales director for The Wahl Company, to become export manager for The B. F. Goodrich Company. A. A. Herschler has succeeded Mr. Mahoney in the Wahl organization. Mr. Herschler had represented the company at Paris and London in the past.

Chicago, Ill.—The first floor of the local service station of the L. E. Waterman Company has been rearranged to give more seclusion to the wholesale customers. Their section of the store has been isolated from the general public by cutting off part of the store by means of a display counter. This facilitates concentration, as there are no interruptions.

Chicago, Ill.—The Chicago branch of the W. A. Sheaffer Pen Company has found it necessary to expand again, due to the demands of dealers in the Chicago territory. A few months ago the branch offices were enlarged. Even these increased facilities did not suffice, so H. E. Waldron, vice-president and general sales manager, has taken another office adjoining the present branch establishment.

Fort Madison, Iowa.—Mr. and Mrs. W. A. Sheaffer have returned from a recreation trip to Banff, in the Canadian Rockies. While in the Dominion they also visited Vancouver and Winnipeg.

Jersey City, N. J.—Harry W. Armstrong, assistant treasurer of the Joseph Dixon Crucible Company, spent his vacation in the middle west and the Great Lakes region.

New York, N. Y.—Craig Sheaffer, treasurer of the W. A. Sheaffer Pen Company, was in New York on business last month.

New York, N. Y.—The Eclipse Pen Company is operating under a receiver in equity. The business was devised by the late Marx Finstone to his son, and the receivership was arranged to conserve his interests.

San Francisco, Calif.—L. A. Wagner, coast pencil man for the Joseph Dixon Crucible Company, was found in his San Francisco office, just snapping back into work again after a two weeks' vacation. He said that he and his family had driven a little everywhere, but the pleasantest part was when they stayed in Los Altos amid fruit orchards, but within an hour's drive of a fine beach. C. H. Colby, of the same company, has returned from his vacation, and Charles C. Nunn left for his regular fall trip early in August. Mr. Wagner said that he is finding the volume of business pretty good.

Wilmington, Del.—The Universal Pen Company has been chartered to deal in pens, pencils, and writing devices of all kinds; capital stock, 1,000 shares no par value; A. K. Lane, charter representative, Wilmington.

### India Attractive Market for Good Pens and Pencils

Commerce Reports]—American manufacturers of expensive stationery articles, such as high grade fountain pens and pencils, have built up a considerable business in India. The Indian merchants will not bear the cost of advertising. The American manufacturers conduct their campaigns on modern lines, including personal visits.

### Commerce Department Bulletin on Baltic States

The United States Department of Commerce has issued Trade Information Bulletin No. 569, "The Baltic States—Estonia, Latvia and Lithuania—A Short Review of Resources, Finance and Trade." Copies can be obtained for ten cents in cash from the Superintendent of Documents, Government Printing Office, Washington, D. C., or at the district and cooperative offices of the United States Bureau of Foreign and Domestic Commerce. The review presents the basic economic conditions of the three states. It gives a clear appreciation of

**See Following Page**

# Voted the Favorite in 55 Colleges

by a margin of 47%

Read How This Significant Survey of Student Preference  
Was Made — and What It Means To You

At 55 colleges, located in all sections of the country, professors submitted questionnaires to their classes on which were included the following questions—

Which fountain pen do you now own?

Which fountain pen will you buy next?

The results (audited by certified public accountants) showed that 47% more students owned a Parker than the next most favored pen—and in the future also more would select a Parker than any other make.

*A Parker Double Page Spread in Colors  
in The Saturday Evening Post  
—for School Opening*

Parker is going to broadcast the results of this survey in a dominating 2-page ad in colors in the

September 8th issue of The Saturday Evening Post.

Also Parker ads will appear in 284 newspapers on School Opening Day in cities and in 177 college publications.

*A New Parker John Held  
Window Display*

And Parker has had a School Opening Window Display designed by John Held, Jr.—the favorite artist of the younger set, and also a full line of dealer helps for school opening—blotters, circulars, newspaper ads, movie slides, etc.

So this fall more than ever, the school and college business is going to dealers who FEATURE Parker Products. Be ready. Send your order in now for what you need to put your Parker stocks in shape for the biggest demand in your experience.

### Guy H. Abbott New Ditto President

Guy H. Abbott was recently elected to the presidency of Ditto, Incorporated, Chicago, manufacturers of duplicating machines and supplies. Mr. Abbott succeeds J. A. Joy, president of the company since its organization in 1910, who becomes chairman of the board.

Other members of the organization advanced at the same time are J. M. Cheney, vice-president in charge of sales, formerly treasurer; K. M. Henderson, vice president, formerly secretary; and F. G. Pamperien, secretary and treasurer.

The company recently moved into its present quarters at Harrison street and Oakley boulevard, Chicago, which it purchased from the General Electric Company.

### Sheaffer Assistant Export Manager in South and Central America.

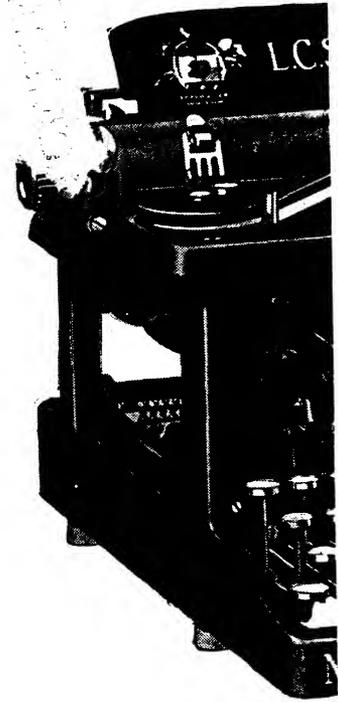

Herman Lutz, assistant export manager of the W. A. Sheaffer Pen company, Fort Madison, Iowa, left New York recently for Spanish-America, where he will call on the regular customers of Sheaffer, as well as other distributors and dealers of importance. Mr. Lutz has just completed a successful two months selling campaign through the northern, eastern, and central parts of Mexico, and on his present trip will be gone at least until the first of December, traveling through the countries of northern South America, Central America, and the sections of Mexico which he was unable to cover on his last trip to that country.

His first stop will be Port-of-Spain, Trinidad, and from there he will go to Venezuela, Dutch West Indies, Colombia, Panama, Nicaragua, El Salvador, Guatemala and Mexico. This journey, strenuous but interesting, presents many variations in topographical characteristics, requiring the use of several kinds of transportation in order to move about with dispatch and profit. After disembarking at Baranquilla, Colombia, Mr. Lutz will make his way up the Magdalena river from Baranquilla to Bogota by river steamer and rail, an arduous journey requiring from one to three weeks, depending on the condition of the river. Two legs of his journey of seven days duration, from Bogota to Manizales and from Manizales to Medellin, will find him making his way with heavy samples through the mountains by mule back. Before returning to the United States, Mr. Lutz will use practically all methods of locomotion except airplane.

C. N. Murray, export manager of the Sheaffer company, reports that during the few short years that Sheaffer has been in the export field, sales in southern markets have shown satisfactory month by month increases even without personal sales contact. Now that regular visits are to be made to the Latin-American countries, sales increases will unquestionably take place at a greater rate than in the past, if recent experiences in Mexico are taken as a criterion in judging possibilities in other Latin-American countries.

### H. E. Wedelstaedt Company in Larger Quarters

H. E. Wedelstaedt Company, St. Paul, Minn., has moved to a new and larger location at 344 Minnesota street. This is adjacent to the H. C. Boyeson Company location and directly opposite the Federal Land Bank. The new store is modern in every respect and has a floor space of about 3,100 square feet. The basement, used for a warehouse, has about 6,000 square feet of floor space. Charley Boehmer, who has managed the company affairs for a good many

## PASSED AWAY

Carroll C. Cobb

No man in the fountain pen industry was more greatly respected than C. C. Cobb, who passed away at his home in Toledo, Ohio, on August 12. For two years he had been in ill health resulting from an attack of influenza. his

THE LATE C. C. COBB

death having been caused by complications arising from that malady.

The passing of Mr. Cobb from the sphere of earthy activities is a grievous blow to his family and to his many friends and associates. Office Appliances joins in sympathy to the living who must bear the sorrow of parting. Especially do we extend sympathy to Mrs. Cobb, who must bear not only the death of her husband but also that of her mother who died suddenly on August 10 at her home in Hillside, Mich.

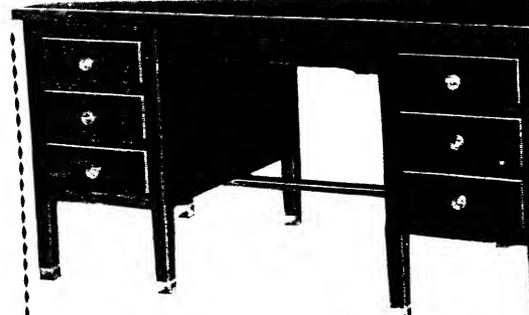

Carroll C. Cobb was fifty-nine years old at the time of his death. He was vice-president and general manager of The Conklin Pen Company of Toledo, with which company he became associated twenty years ago as sales manager, being made general manager in 1923. He was a native of Hudson, Mich., and came to Toledo in 1903 with the United States Pump & Supply Company. Later he went with the Woolson Spice Company.

During the score of years during which he gave his fine abilities to the service of The Conklin Pen Company, Mr. Cobb became known among the stationery trade throughout this and other lands, and was held in universally sincere respect and esteem. He was prominent in the councils of the National Association of Stationers, Office Outfitters and Manufacturers and was ever ready to give time and labor in promoting the interests of the industry. Mr. Cobb was a member of the Toledo Rotary Club. He is survived by his widow; a son, Carroll J. Cobb of Columbus; a brother, Fred H. Smith of Alameda, Calif., and two sisters, Mrs. E. H. Manning of Los Angeles and Mrs. Frank Whitbeck of Hudson, Mich.

+ + +

Mrs. J. J. Horne.

Friends of W. A. Horne, of the Horne Desk and Fixture Company, Atlanta, Ga., will sympathise with him in the death of his mother, Mrs. J. J. Horne, who passed

Four grades of better finished stronger constructed — more beautiful office desks — every number designed for efficiency and priced to insure rapid turnover.

Little refinements make ENGLEWOOD DESK exceptionally distinctive. The keen looking—and built to last. They will mean “lasting satisfaction” to your customer and repeat business for you.

Covering practically every business requirement, this line is worth showing and talking about—it has the call from the great middle grade demand, the most expensive—not the cheapest—but nearly always best for the purpose.

*Inquire for the exclusive sale in your city.*

Chicago, Ill.

**Parker Pen Salesmen Confer in Atlanta**

Sales representatives of the Parker Pen Company from ten southern states were present at a semi-annual sales conference which closed a three-day meeting at the Atlanta-Biltmore hotel, Atlanta, Ga., on August 8.

One of the principal features of the meeting was the introduction of W. L. Clark, of Chicago, who is succeeding H. L. Blackman as general sales manager of the company this fall. Mr. Clark is accompanying Mr. Blackman on a series of sales conferences which are being held throughout the United States in order that he may become better acquainted with the members of his organization.

In addressing salesmen of the company, Mr. Blackman stated that the business of the Parker Pen Company has increased greatly this year. The month of July, he said, was twenty per cent ahead of July, 1927, while sales in the Atlanta territory have shown a gain of approximately thirty per cent.

Plans were laid for fall and winter sales of the Parker pen products, and several new products to be placed on the market this fall were displayed. J. R. Rhodes, southeastern sales manager, was in charge of the meeting.—J. H. R.

**New York Stationers' Golf Association**

On August 14 at Bonnie Briar Country Club, Larchmont, N. Y., the New York Stationers' Golf Association held one of its regular tournaments. Ralph Kennedy, George Fairchild and Robert Sainberg tied for first place in Class A. C. H. Everly of Office Appliances won Class B. S. Libien was the winner in Class C.

At the previous meeting at Englewood, W. S. Stafford won first place in Class A, and A. G. M. Stavelly second place. In Class B, R. F. Familton won first place and A. M. Gilbert second place. In Class C, W. H. Wallace won first place, there being no second award. The special prize donated by Mr. Fairchild was won by R. B. Sainberg.

The present standing for the Season's Cup in each class is as follows: Class A: W. S. Stafford and A. G. M. Stavelly are tied for the leading honors. Class B: L. H. Dummer is leading with an outstanding point total. Class C: led by Morris Popper.

**Quality Park Folk Frolic at Wildwood Park**

Employees and executives of the Quality Park Envelope Company enjoyed an outing August 11 at Wildwood Park. This was held in conjunction with its affiliated interests, the Minnesota Specialty Company and the Quality Park Envelope Company. The picnickers traveled to the park in motor cars, where the official lapel button was car fare. The button also secured ice cream on the grounds, and admission to the dance hall.

A series of athletic events was held in the morning, with prizes for winners. These included a three-legged race for men, three-legged race for women, three-legged race for man and woman, shoe race for women over twenty-five, shoe race for women under twenty-five, sack race for men, sack race for women, backward race for men, backward race for women, 100 yard relay race for man and woman, 100 yard dash for women, 100 yard dash for men, 100 yard dash for man and woman, leap frog race. YN

NEW COUNTY COURT HOUSE AT SULLIVAN, INDIANA.—This building has just been completed and was equipped by the J. W. Dalley Furniture Company of Terre Haute, with Metal Office Furniture Company equipment made at Grand Rapids, Mich. The contract called for complete installation of all the furnishings and the turning over of the building ready for occupancy on June 1. The three illustrations

below the picture of the court house show some of the offices in the new building. The equipment is modern, steel furniture being used exclusively throughout. The steel furniture was largely of a special design and was all of Metal Office Furniture Company manufacture except the safes. All furniture is finished in American walnut in harmony with the trim of the building.

### Sheaffer Factory Folk Enjoy Picnic

Employees of the W. A. Sheaffer Pen Company and their families enjoyed the third annual picnic given by that organization August 4 at rustic Bluff Park, near Fort Madison, Iowa. All factory and office departments were closed, so that all could join in the fun. The usual games for adults, athletic contests and sporting events were held, with fine prizes for the winners. The youngsters were well provided for with various recreation features, including a "big-time" merry-go-round which was in operation all day long.

In addition to the diversions provided by the Sheaffer plant, a radio receiving set on the grounds picked up the

best music then on the air, and delivered results of the big league base ball games in the afternoon. Dancing was enjoyed in one of the large halls on the grounds, decorated especially for the event. The "Lifetime" band offered a fine program of musical numbers. Among these was a song composed by the wife of one of the officers of the company, and adopted as the company song.

Chicken lunch, lavishly accompanied, was served during the noon hour to nearly 2,500 people. Other refreshments were offered frequently throughout the day. Under the able management of a carefully picked committee, the 1928 picnic of Sheaffer proved the banner one of the three held thus far.

HUGH SMITH

CARL GAZLEY

enders will be exhibited at the West Baden Convention October 8 to 11. Dealers are cordially invited to stop in for a few minutes at booth number 130, where Mr. Short will be glad to show the complete display.

**Yawman & Erbe Men Step Up**

F. J. Yawman, who for the past six years has been general sales manager of the Yawman & Erbe Manufacturing Company, Rochester, N. Y., has been appointed vice-president in charge of sales.

Hugh Smith, eastern district sales manager, has been appointed sales manager. Mr. Smith has been with Yawman & Erbe for twenty-six years, serving as salesman, branch manager, supervisor of branches, and most recently as eastern district sales manager.

The position of assistant general sales manager, which Carl Gazley has held for the past two or three years, will be discontinued and Mr. Gazley's title will now be assistant to the vice-president in charge of sales. He will also continue to have charge of advertising.

**I & M Line Sold to Detroit Metal Specialty Corporation**

The Ireland & Matthews Manufacturing Company, who for many years have been prominently identified with the stationery trade as manufacturers of brass and steel cuspidors, announce the sale of their entire line to the Detroit Metal Specialty Corporation, Detroit, Michigan.

In leaving this field, the company wishes to express its sincere thanks to the many friends whose patronage has made their success in business possible. They assure their

old customers that the new company is highly capable of taking care of the cuspidor business with satisfaction to all concerned.

The Detroit Metal Specialty Corporation has had years of satisfactory experience in the metal stamping line, catering to a national market. They are well fitted to uphold the quality which Ireland and Matthews established and held for so many years.

**A. C. Adams of "G-F" Visits Chicago**

Avery C. Adams, assistant to the president of The General Fireproofing Company, was a visitor at the Chicago branch in August. He was appointed to this position a short time ago by George C. Brainard, president of the "G-F."

**Proctor and Others Join Western Office Utilities**

Oden Proctor, heretofore with the Rand Kardex organization, has joined the Western Office Utilities at Los Angeles.

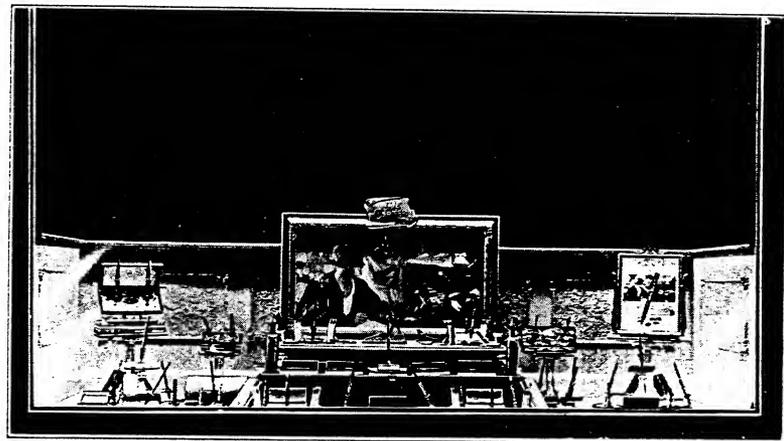

Another new member of the organization is C. F. Earl, also formerly with Remington Rand.

Louis Goldsmith, for some time with the Charles R. Hadley Company, is manager of Western Office Utilities, Inc. at Long Beach, Calif.

**Gill's of Portland Hold Picnic**

Part of the store staff of The J. K. Gill Company, Portland, Ore., held a picnic at Oaks Park. Many thrillers were enjoyed, and innumerable episodes which transpired will be potent material for reminiscences beside the winter fires.

ness structure. It should be illegal for any seller to solicit business on the basis of cost or below cost because the public interest is thus seriously affected, just as much so as it would be were it legal to agree upon selling prices in order to obtain an exorbitant profit."

Mr. Abbott suggests that purchasing agents and sellers get together and discuss their buying and selling problems and thus approach the establishment of policies so as to create a condition where business relations can be conducted upon a sound basis. Every manufacturer must create consumer good will and build up public recognition. To do this he invests large sums of money which should be protected by a clear recognition of the rights of the jobber or distributor and of the retailer. If the service of distribution is inefficient the manufacturer suffers. The conclusion is that no service can be efficient which is not conducted at a profit.

Views of Prominent Fountain Pen Manufacturer.

Somewhat along the foregoing lines are the suggestions made in a booklet recently published by the W. A. Sheaffer Pen Company. The booklet is entitled Constructive Merchandising. In the foreword, Mr. Sheaffer points out that the amount of articles on which there is not being realized a fair margin of profit on account of cut prices is rapidly increasing and that chain stores and the increased number of individual stores have divided profits to a point where they are now turned into loss in many cases.

National advertising if not coupled with constructive merchandising by the sales force will bring down the average sale of any article and bring the volume of any store that hands out only what is called for to a very low average sale. There are thousands of vacant stores, many of which can be rented by paying a month's rent in advance and countless lines of merchandise can be obtained on long time payment or on consignment. Misguided men are thus encouraged to open stores without capital and without knowledge of the business. With the increased number of stores, merchants must improve their methods and increase their volume or see their business divided by the increasing number.

Mr. Sheaffer makes the following nine suggestions to dealers:

1. Careful selection of the best merchandise at a given price.
2. Carrying of merchandise that is well advertised and bears a fair margin of profit.
3. When properly presented merchandise that can be sold in most cases on which one consistent sales talk can be made eliminating doubt in customer's mind and is especially effective when customer's mind is not made up.
4. Carrying merchandise that bears the manufacturer's name always instead of stencil merchandise on which the manufacturer avoids responsibility.
5. Featuring lines that do not compete with the retailer through outlets established by the manufacturer.
6. Avoidance of consigned lines.
7. Refuse to feature lines that are sold in all channels of trade and which can be purchased at wholesale through other than legitimate channels.
8. Show an intelligent interest in the customer's requirements and thus induce him to return to the store for each succeeding purchase.
9. Do not handle lines on which there is frequent price cutting.

and defeat every plan yet conceived ers. The manufacturer of an industrial ver, can control his prices. There is event him from refusing to sell goods of production. However, the practice es among industrial manufacturers and ost is extensively followed. Because of of this custom, we hear much of profit- etc.

salesmen and officers of Office Outfitters Company, Inc., Dallas, Texas.—The Dallas Office Supply has added a floor to its space, permitting a complete showing of "G-F" products.

Detroit, Mich.—Lynn B. Emery, Inc., has succeeded to the business of The Hilton, Hart & Garrett Company.

Eau Claire, Wis.—The Eau Claire Stationery Company has been appointed representative for northwestern Wisconsin by The General Fireproofing Company.

Haverhill, Mass.—The Oxley Steel Equipment Corporation has been chartered to manufacture and deal in all kinds of stationery, office supplies and equipment, including desks and cabinets; capital stock, \$25,000; incorporators—Thomas H. Arnold, Plaistow, N. H., John H. Oxley and Mary L. McCarthy of Haverhill.

Kansas City, Mo.—The Office Equipment Company has added the lines of the Oxford Supply Company. It had already carried such representative items as the Metal Office Furniture Company, Englewood Desk Company, Schwab Safe Company and Fred Medart Manufacturing Company.

New York, N. Y.—The local store of the Yawman and Erbe Manufacturing Company, 368 Broadway, suffered a fire loss of about \$50,000 January 6.

Philadelphia, Penna.—The Shaw-Walker Company, Muskegon, Mich., has purchased the four-story building at 1010 Chestnut street, now occupied by the Philadelphia branch. Extensive alterations will be made, including a basement salesroom.

Portland, Ore.—K. F. Belding, who had been a part owner in the West Coast Printing & Binding Company, has joined Glass & Prudhomme.

Portland, Ore.—The J. K. Gill Company has installed an argon electric sign on its building, displaying three shades of green in the design and lettering.

Portland, Ore.—The Paul C. Giesy Company, Pittock block, has established a salesroom for office appliances at 103 West Park street. The main store is on the Stark street side of the building.

Rochester, N. Y.—H. J. Mehsele has been appointed traveler by the Yawman and Erbe Manufacturing Company, covering the territory handled formerly by S. C. Shortlidge. This includes western and northern New York state.

San Antonio, Texas.—Moss Evans has been placed in charge of visible and filing systems and business machines department of the Maverick-Clarke Litho Company. He had been formerly with The Baker-Vawter Company, Rand-Kardex and Library Bureau.

Springfield, Ill.—The General Fireproofing Company has appointed the Springfield Office Equipment Company its local dealer.

### Iraq Trade in Fountain Pens and Pencils

[Commerce Reports] Fountain pens have been known in Baghdad for twenty-five years, but until ten years ago the trade was very limited. The trade in refillable pencils is likewise a development of the last ten years.

Iraq's customs publications do not show as separate items the quantities or values of fountain pens and pencils imported into the country, but one of the leading Baghdad merchants estimates that the value of these products sold in the Iraq market totals \$6,500 annually, \$4,000 worth being imported each year from the United States and the remainder from Europe. It is claimed that the imports from Europe, however, consist partly of American fountain pens and pencils sent out by European agents or distributors and classified as European on the shipping documents.

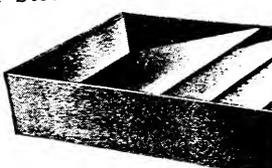

The better quality fountain pens sold in Iraq are of ordinary black rubber composition, with one or two gold or silver bands. The better quality refillable pencils are either gold or silver or gold or silver plated.

Fountain pens retail at ten rupees (\$3.60 each), including customs duty of fifteen per cent ad valorem. Cheaper fountain pens are also sold in Baghdad and retail at two rupees (\$0.72) to five rupees (\$1.80).

Gold or silver plated refillable pencils or silver or silver plated pencils retail at varying prices, bring generally between eight rupees (\$2.88) and twenty rupees (\$6.72) each, including customs duty of twenty per cent ad valorem. Cheaper automatic pencils are also sold in Baghdad and retail at one rupee (\$0.36) to three rupees (\$1.08).

An idea at work is worth a hundred in your head.—Quality & Courts).

### New England Travelers Elect Officers

The New England Travelers' Club held its semi-annual meeting Tuesday noon, December 11, 1928, at the Boston Chamber of Commerce. The following officers were elected for 1929: Wm. J. Driscoll, president; Guy Hart, first vice-president; Herbert Blizard, second vice-president; Robert W. Myers, financial secretary; Fred H. Salmen, recording secretary; and Harry R. Bennett, treasurer-custodian.

Last spring the New England Travelers' Club was organized with nine charter members. The present membership is ninety-one and the roll is constantly increasing.

### Carter Sales Convention

The Carter's Ink Company held its annual sales convention in the main factory building at Cambridge, Mass., the week of December 31. Morning and afternoon conferences were held every day. Executives active in the meetings included Richard B. Carter, president; Charles B. Gordon, general manager; George P. Metcalf, vice president; Walter F. Wyman, general sales manager; Fletcher W. Taft, pen and pencil sales and advertising manager; William H. Greenleaf, manager sales promotion department; John A. Corliss, carbon and ribbon sales manager; Selden W. Tyler, ink and adhesive sales manager; Clinton B. Wiley, export manager and in charge of sales statistics.

Announcement was made of the new Carter "Pearltex" line of de luxe fountain pens, selling at \$10.00, \$8.00 and \$6.00, with pencils to match. Included in the line are desk stands with single and double pens. Many new ink and adhesive lines were announced, including Carter's "Tiger" cushion stamp pads, rubber spreader "Stikist" mucilage and "Ryto" ink for fountain pens and steel pens.

The stationer's sales opportunities in Carter's carbon papers and typewriter ribbons were outlined by several of the executives. Many improvements were featured in this fast growing division of the Carter family. Special emphasis was placed on Carter's fountain pens and pencils. The salesmen were gratified to hear of the great strides that have been made in getting distribution for the line, and the part the field men had played in this development.

The final event was a dinner and entertainment given in the ballroom of Hotel Commander, Harvard square, Cambridge. This was attended by executives, department heads and the sales staff, together with the ladies. Dancing occurred during the dinner. Later an entertainment program was presented, under the direction of Fletcher W. Taft. This continued until time for the advance contingent of salesmen had to leave to catch trains for home points. Many humorous references and special events of interest to the salesmen and executives were made during the evening.

### Underwood Dinner for Managers at Chicago

Twenty-five branch managers of the Underwood Typewriter Company operating in the central west, were the guests of J. E. Neahr, sales manager, at a dinner given December 27 at the Palmer House, Chicago. Maitre Muller, of that hostelry, was given orders to do his best for the Underwood men, and he did not disappoint the sales heads.

### Big Meeting of I. S. M. A. in February

Districts 2, 5, 6 and 9 of the International Stamp Manufacturers' Association will convene in Montreal, Canada, on February 22 and 23, 1929. The present outlook indicates that visitors will be present from Chicago, Pittsburgh, Detroit, Toledo and other points outside of the four districts concerned.

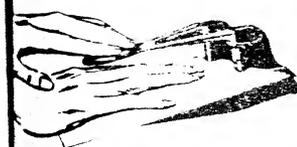

ONLY a slight effort is necessary to operate an ACCO PUNCH. Only the easy action of wrist and finger-tips creates a short powerful drive, the result of which is a clean cut through the paper which distinguishes the ACCO PUNCH from others. There is an ACCO PUNCH for every standard loose leaf and hole.

Only a slight effort is necessary to sell them—displayed with the ACCO PUNCH in the office. The ACCO PUNCH and binders. ACCO PUNCH immediately suggest themselves as essential adjuncts.

forty-five percent from Germany, making the cost in New York insurance \$1.85 per gross. Our informant fears that any material increase in the lead pencil tariff would probably mean that there will be no importers of pencils. An increase in pencil duties would not necessarily result in an advance of pencil prices in the United States. There are domestic pencil manufacturers who feel that duties are too low and that the price at which imported pencils can be placed in the hands of dealers is a handicap to domestic pencil production. We have no doubt that the matter will be thoroughly discussed in Congress.

**Territorial Changes by Charles R. Barry Co.**

The Charles R. Barry Company, San Francisco, Calif., has made definite assignments of territory for its salesmen to enable them to spend a maximum of time in touch with dealers. Bruce English has the Pacific northwest territory, which comprises Oregon, Washington, Montana and Idaho. During the past year he covered San Francisco and the bay district.

Arthur O. Carlson, formerly traveling northern California and Nevada, has moved to Los Angeles. From that point he will make southern California, Utah, Colorado, New Mexico, Arizona and El Paso, Texas. Leland C. Adams returns to the San Francisco and bay district, handling also northern California and Nevada.

Hahlon Johnson has joined the organization as a junior, working from headquarters at San Francisco.

**Columbian Art Works Calendar**

The Columbian Art Works, Inc., 1024-32 Juneau avenue, Milwaukee, Wis., makers of the Columbian Success line of desk calendar stands and pads, and "Tear Kleen" wall calendars, are distributing a popular type of calendar for 1929. It is thirteen inches wide and thirty-two inches long and is printed in four colors, black, tan, blue and red. The lower two-thirds of the calendar carries a date pad showing three months, past, current and next. The current month has blue figures for working days and red for Sundays and holidays printed on a background of white, making it stand out more strongly than the other months which have black figures on a background of tan.

**Conklin "Enduras" Aboard the "Question Mark"**

Messages dropped from the giant army Fokker monoplane "Question Mark," which recently established a new world record for sustained flight, were written with Conklin "Endura" fountain pens. Just before the big ship "took off," the Fokker Aircraft Corporation presented a specially engraved Conklin "Endura," procured from Conklin dealers in Los Angeles, Calif., to each of the sixteen members of the crew and ground men of the now famous "Question Mark." The pens proved very satisfactory in writing the records of the record-making flight.

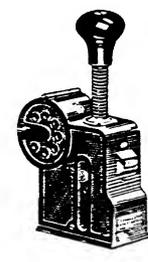

**Los Angeles Stamp Club Holds Meeting**

The Los Angeles Stamp Club held an informal meeting in December and one on January 22. At the last meeting, F. M. Couch, a national figure in credit circles, addressed the club on "Twelve Signs of a Failing Business."

**Seals All Your M**

The new Standard Stamp Affixer affixes stamps 5 times faster than by hand, neatly and securely. Many improvements in this new model.

The Standard affords a permanent method for mail. It handles shape and size filling the needs mailers and also mailers who use tion with automa catalogues and

It does its work by applying just enough out soiling the envelope inside. Moreover strictly sanitary a healthy sponge cup for germ-laden dust ing to wear out; cleaning or replac last a lifetime.

**Profit for Dealer**

The great demand for the Standard Junior its low retail price makes it very attractive to Co-operative Selling Franchise makes it to handle this sealer or other Standard investment. Send for a copy of this Free literature—today.

rdy as a lion on a lawn.  
nd. Special lubricated

Built in Desk Counter, four  
and five Drawer Heights.

President A. W. Sadden presented the opening address, followed by Yuletide greetings from John R. Watson. The remainder of the program was a judicious and amusing blend of art and hilarity in which many of the artists were amateurs, several of whom were so good that it is rumored some of the New York scouts for Broadway productions are seeking to augment the professional ranks from the association's talented membership.

The association is composed of the following office appliance managers:

President, A. W. Sadden. Yawman & Erbe Manufacturing Company; vice-president, J. B. Jones, L. C. Smith & Corona Typewriters, Inc.; secretary and treasurer, C. H. Eccles, The A. B. ### Conklin Pen Company Holds Sales Convention

That The Conklin Pen Company of Toledo made great gains during the past year and is now in a position to control a business volume in excess of anything the company has ever previously done, was revealed at the Conklin sales convention held in Toledo early in January.

Free life insurance policies covering every employee in the Conklin office, sales and factory organizations were announced by General Manager C. B. Mathes. Treasurer A. B. Richardson told the assemblage of the satisfactory financial progress made by the company in recent years, which made possible the retirement of a large block of Conklin preferred stock and the payment of a handsome dividend on the common.

The Conklin Company, originators of the self-filling fountain pen, are among the leaders in the industry in the creation and development of new models of fountain pens and mechanical pencils. Arrangements have been made to intensify the work of the company's engineering department in the development of new and better products. Various new and attractive models will be announced during the present year.

Reorganization of the Conklin sales staff provides for the appointment of Ivan Payn as the new Conklin sales-

man in Southern California; O. A. Weber in Oklahoma and George Sanderson in New England.  
The company officials state that fine gains are being made in the export field following a policy of greater aggression in overseas markets. President C. E. Bunting of the company sailed in January for an extended trip through the Orient in the interests of the business. Export Manager A. C. Marquardt will leave early in the year for South American countries where Conklin business is having a rapid and substantial growth.  
General Manager C. B. Mathes conducted a sales convention in January in San Francisco for the West Coast salesmen of the company, and reports an unusually active business in Pacific markets.

Sheaffer's Fifth Annual Convention

The fifth annual sales convention of the W. A. Sheaffer Pen Company was held at Fort Madison, Iowa, January 2-5 inclusive. Salesmen were present from all parts of this country and Canada, as well as organization men from the branch offices at New York, Chicago, San Francisco and Toronto. The meetings were of the nature of a school in merchandising.

Trips of instruction through the factory for old and new members of the organization were made. All sessions of the convention were held in the Sheaffer Club House where the new balanced line of Sheaffer fountain pens and pencils was on display. Addresses were made by men notable in other lines of business and industries, as well as by officials and department heads of Sheaffer.

Some of the men who delivered interesting and educational messages to the Sheaffer salesmen assembled are: A. G. Abel of Cockfield-Brown Advertising Company; W. D. McJunkin and W. W. Garrison, McJunkin Advertising Agency, Chicago; Bert Hassell, famous flyer and arctic explorer who piloted his Stinson aeroplane to Fort Madison to attend the convention; A. R. McDonald, associate editor of Business; and W. K. Braasch, well known sales authority and public speaker of Chicago.

Although the days were devoted exclusively to business, the evenings were given over to entertainment held in the club house gymnasium and provided by professional singers and instrumentalists of Chicago. At the conclusion of the convention, during which several elaborate dinners were served by the company to those present, prizes were awarded to Sheaffer salesmen for outstanding accomplishments made during the year.

Kunze Employees Celebrate

The annual Christmas party of the employees of S. Adam Kunze, typewriter rebuilder, 75 Franklin street, New York, N. Y., was held at the Kunze office on December 24. The members of the staff and several invited guests thoroughly enjoyed the celebration, a feature of which was an Italian style luncheon, the preparation of which was supervised by...

The session concluded with a vote of thanks to Mr. Mitchell for the time and labor he had spent in bringing the meeting together, and it was unanimously agreed that the day was one of the most profitable those present had ever experienced, and that they felt well repaid for the expense of the trip and the time taken to get the movement started.

Various subjects have been suggested for discussion by the retailers, including chain store competition; direct selling by manufacturers, and also by wholesalers; effect of manufacturers' national contracts on the retail business; favored prices on large contracts by dealers having jobbing connections; minimum orders acceptable to certain manufacturers; "service charges" by some of the manufacturers; salaries and commissions to inside and outside salesmen; comparative analysis of overhead in different communities; pooling orders for standard items, either as an organization or in sectional groups; better buying vs. better selling, etc.

One of the matters discussed at the meeting had to do with the possible elimination of needless varieties, sizes and dimensions, patterns and models of staple goods. It was felt that a study of the subject of standardization would result in relieving retail stationers of many of the slow-moving, little wanted types and sizes of merchandise, reducing the amount of stock investment, providing more room for lines that move, and reducing overhead expense.

The thought was also brought out that there should be some way in which to acquaint manufacturers with the retailers' actual costs of distribution. No doubt manufacturers are already acquainted with the average figures, but too many fail to take these figures into account when arranging their discounts, with the result that the retail distributor cannot make a legitimate profit. It was believed that definite figures and vigorous representations would result in better discounts in many cases.

With regard to collective buying by districts and collective buying of large volume items by the organization as a whole, the thought was brought out that the selling cost of the manufacturer would be considerably reduced, perhaps making it possible for the manufacturers to sell to the members of the retail stationers association at a price that would permit the retailers to compete with the "direct to consumer" selling plan of some manufacturers, jobbers and wholesalers.

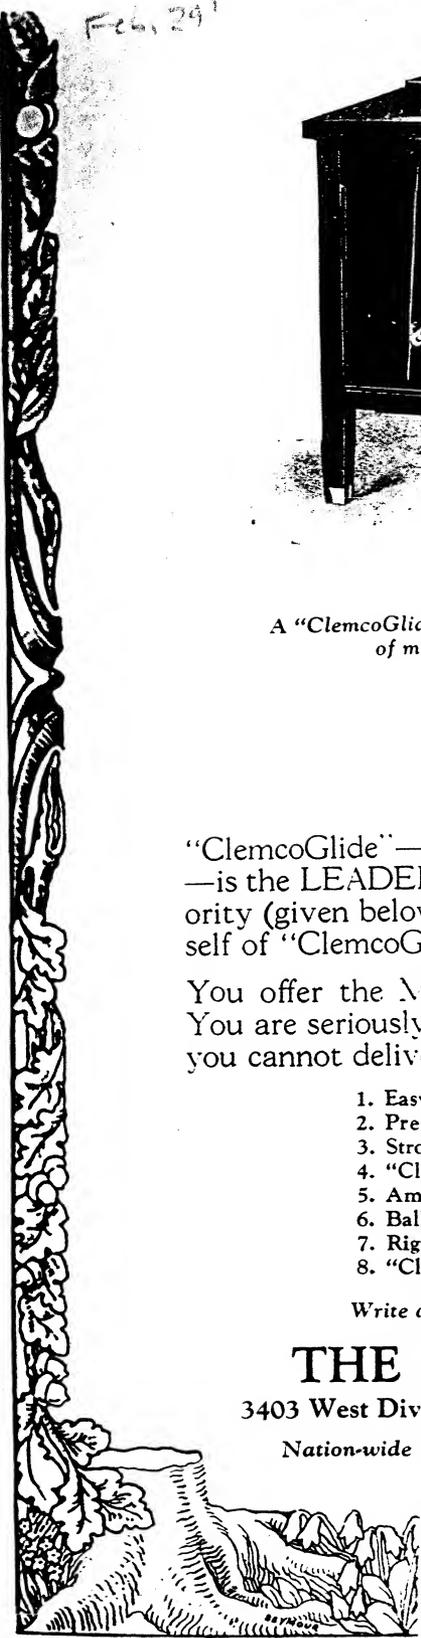

### Conklin Achieves New Color Creation

The Conklin Endura imperial purple and gold is the latest of the Conklin pens and pencils to bear the Conklin unconditional and perpetual service guarantee. It is an effective color combination, differing from the conventional. Imperial or royal purple and gold are the colors of luxury and authority, the use of which was once among the prerogatives of royalty.

The new pens and pencils are distinctive and pleasing. The pens will retail for \$5.00 each, the pencils for \$3.50, and the set for \$8.50.

People will never take off their hats to the money you have wasted.—Berloyalist (The Berger Manufacturing Company).

## THE

3403 West Div  
Nation-wide

in the heels of this announcement...  
the effect that Samuel A. Neidich, president

SAMUEL A. NEIDICH

ed company, had been appointed manager of  
ablished supply departments of the Under-  
riter Company and of the General Office  
operation.

Wagoner, president of Underwood Elliott-  
ting the announcements, said that the Neidich  
ded his company unbounded opportunity to  
es in the manufacture and sale of supplies for  
pewriters and Elliott-Fisher, Sundstrand and  
business machines.

and steady growth of the Neidich Process  
ce its incorporation in 1909," Mr. Wagoner  
tributable to the unexcelled quality of its prod-  
progressive manufacturing methods which  
breast of every advance in the machine indus-  
trise which has anticipated and met the ever-  
ands of modern business.

ducts, this progressiveness and this service.  
idich himself, are now placed at the disposal  
nderwood Elliott Fisher machines."

h, while assuming the management of the  
Elliott Fisher supply departments, retains the  
d active directorship of the company bearing  
he Neidich plant at Burlington, N. J., will  
ations as heretofore with no change in the  
Distribution of its products will continue  
ch houses in New York, Philadelphia, Balti-  
Louis and through 300 jobbers both in the  
and abroad.

1, who was born in Carlisle, Pa., in 1875 and  
of Dickinson College and of the Massachu-  
e of Technology, entered the office appliances  
ess in 1899 through an incident which alto-  
ed his plans for a career.

er he had opened a Philadelphia office as con-  
nical and chemical engineer he sent out sev-  
form-letter announcements. These were such  
ns of typewriting that it became apparent to  
that there was much room for improvement  
f duplicating typewriting. It was not long  
died for patents on the Neidich process, which  
printing circular letters on a job press through  
inked record.

ucts from the first were used by the Elliott-Fisher Com-  
pany. This concern outgrew its Philadelphia plant in two  
years and in 1906 moved to Burlington, N. J.

Three years later, the Neidich Typewriter Supplies Com-  
pany was superseded by the Neidich Process Company,  
which had functioned theretofore as a subsidiary. Thence-  
forward its history is a succession of achievements and  
advancements which carried it quickly to leadership in the  
industry. Under Mr. Neidich's astute direction, the com-  
pany has developed formulas for 500 different qualities of  
carbon papers and some 2,300 varieties of typewriter and  
other inked ribbons.

Mr. Neidich was recently re-elected president of the  
Carbon and Ribbon Exchange. Its membership repre-  
sents the makers of 75 per cent of all carbon papers and  
ribbons. The Exchange's work has involved development  
for its members of complete market reports, comparative  
cost reports, codes of trade practices, tariff protective rep-  
resentation, and other cooperative efforts which have  
proved of immeasurable advantages to the entire industry.

### Ansonia Novelty Company in Merger

January 1, 1929, The Atlas Manufacturing Company,  
New Haven, Conn., and The Ansonia Novelty Company,  
Ansonia, Conn., were merged to form The Atlas-Ansonia  
Company. The factory of the company thus formed is  
located at 54-62 Grant street, New Haven, Conn.

Before the merger, The Atlas Manufacturing Company  
made coat and hat hooks, shelf brackets, tin spoons and  
knife sharpeners in addition to doing a general wire form-  
ing business. The Ansonia Novelty Company produced  
pencil sharpeners, pencil clips, sewing thimbles, the "Rich-  
ard" oiler, glove dryers and other metal stampings.

The merged companies occupy a thoroughly modern and  
efficient manufacturing plant. The physical consolidation  
of the companies, the installation of new equipment, and  
the improvements that have been made possible by the con-  
solidation, enable the new company to take care of expand-  
ing business, and also to manufacture new items which  
will be brought out later in the year. The personnel of the  
two companies remains the same.

### L. C. Smith-Corona Offices to Be Moved

The daily press last month published a brief public an-  
nouncement to the effect that on March 1 the executive  
offices of L. C. Smith & Corona Typewriters, Incorporated,  
are to be transferred from Syracuse, N. Y., to New York,  
N. Y., where the company has acquired an entire floor in  
the New York Life Insurance Company building which has  
recently been erected at Madison avenue and Twenty-  
seventh street.

### Officers Elected by The Parker Pen Company

The official personnel of The Parker Pen Company,  
Janesville, Wis., as determined at a recent meeting, is as  
follows: George S. Parker, president; Russell C. Parker,  
vice president and treasurer; Kenneth Parker, vice presi-  
dent and assistant treasurer; Bruce M. Jeffris, secretary  
and comptroller; W. L. Clark, general sales manager.

The new board of directors comprises George S. Parker,  
Russell C. Parker, Kenneth Parker, B. M. Palmer, W. L.  
Clark, Howell W. Murray and Charles S. Pearce. Mr.

Murray is a partner in the banking house of Messrs. A. G. Becker & Company; Mr. Pearce is president of the Colgate-Palmolive-Peet Company.

W. F. Palmer, who had been secretary and treasurer of The Parker Pen Company thirty-seven years, has retired and will reside in California. Incidentally, Mr. Palmer disposed of three-fourths of his holdings in the company. His 75,000 shares were listed recently on the Chicago Stock Exchange and the New York Curb. The Parker interests are disposing of none of their holdings, so that less than three-eighths of the capital stock is available for market listing.

#### Ault & Wiborg Organization Changes

With the opening of the new year there became effective two changes in the organization of the typewriter ribbon and carbon paper division of The Ault & Wiborg Company, of Cincinnati, Ohio.

R. W. Smith has been appointed manager of the carbon, ribbon, typewriter supplies, and writing fluid division of the company. He succeeds Mr. Moore, who has resigned.

The new management will have to assist it, in its efforts to serve the trade in an increasingly efficient manner, new equipment and manufacturing facilities which The Ault & Wiborg Company has just installed.

Another change in the Ault & Wiborg personnel is the appointment of K. N. Becker to succeed Mr. Drake as eastern representative for the typewriter ribbon and carbon paper lines of the company.

#### Philadelphia Stationers' Association

Christmas and its meaning had considerable attention at the regular monthly meeting of the Philadelphia Stationers' Association held January 10, 1929, at the Bellevue-Stratford hotel. As soon as the routine business was out of the way, President Francis B. Irwin felt moved to speak on Faith as the factor that produces results. Mr. Irwin mentioned that at Christmas time we feel a thrilling renewal of faith, in ourselves and in our fellow men, and we remember that it was faith that built our nation and brought into being our local, regional and National Stationers' associations. Others present followed Mr. Irwin's lead and spoke glowingly of the joys of Christmas.

Some time was given to the discussion of standardization of stationery items so as to eliminate slow moving and dead stock, which would enable the stationer to compete with the so-called small jobber. A suggestion that a night be arranged in which the older salesmen could give their street experience to the newer and younger men was favorably endorsed.—C. H.

#### Atlanta Office Appliance Association

At the annual meeting of the above-named association the following offices were elected for 1929: President, Joseph P. Fagan, Remington-Rand Company; first vice-president, E. P. Blackwell, The American Multigraph Sales Company; second vice-president, F. R. Wood, Felt & Tarrant Manufacturing Company; secretary and treasurer, E. F. Valentine, General Office Equipment Corporation.

#### Todd Company Adopts

A calendar, dividing the year of 28 days each has been adopted of Rochester, N. Y., makers safety check papers.

The reasons for the adopting to Walter L. Todd are the same as those whichponents of the thirteen-month: While the Todd Company's radical changes as are proposed, the basic principle is:

"So far as our own business concerned," Mr. Todd says, "or Gregorian, calendar is the number of days and in the month. There is a difference of eleven of February and the length of four full working weeks: variation entails an endless amount in preparing comparative production and sales."

Adoption of the new calendar became effective December period included December 31 January 26, 1929. All salesances for expense, rent, interest budgets and periodical statements new calendar and thus will of the progress or lack of given direction.

"Card Carrier" is the name of a card case recently perfected by A. A. Schramm & Company, 1112 Sansom street, Philadelphia, Penna. The case is designed to collapse and hold one card as efficiently as a thick pack. Any size social or business card in general use is held securely by the card holder without padding or binding. By collapsing

"CARD CARRIER" MADE BY  
A. A. SCHRAMM & COMPANY

as the number of cards in the holder decreases, "Card Carrier" prevents unnecessary bulking of pockets and increases the durability of the case. The cover flap is fitted with a pocket in which a memo pad can be carried if desired. When requested, the memo pad is supplied without extra charge.

"Card Carriers" are retailed at prices ranging from twenty-five cents to \$1.50. Stationers, engravers and printers are invited to write for further particulars and samples.

#### "Balance" for the Longhand Writer

The W. A. Sheaffer Pen Company, Fort Madison, Iowa, has announced an innovation in its "Lifetime" line of fountain pens and mechanical pencils. The "Balanced Lifetime" is called a radical departure from the conventional style of fountain pens and mechanical pencils which have been in use the past fifty years. It will in no wise supplant any standard Sheaffer items. The aim and achievement were to improve writing—to make it easier and less of a task. Exact balance is in play. The shape is entirely different, displaying the streamline which is a characteristic of the times. The center of gravity is changed. By the scientific distribution of materials the "balanced" pen and pencil offer perfect poise, and practically no resistance to comfortable, speedy writing.

The lines are graceful, the cap end of the pen being as exquisitely tempered as is the butt end. The pen, when

not in use, rests in an airtight cap. It embodies the characteristic Sheaffer heavy gold iridium tipped nib, constant fluid feed, and the "Waspalumin" double lever filling device making possible thorough collapsing of the sac. The pen has the propel, repel and expel feature. It is provided with an optical grade spring steel slip with smooth ball, which will not tear the pocket in removing or replacing.

The new Sheaffer "balanced" fountain pens and pencils are made in the "DeLuxe" black and pearl, jade green and jet black. Two sizes are available—the oversize with No. 8 nib and the smaller with the No. 7 nib. The retail pen prices are from \$8.25 to \$10.00 in the "DeLuxe" black and pearl numbers. The pencils retail at from \$3.75 to \$4.25 for the oversize "Titan."

The new "Balanced" line will be advertised extensively in magazines, newspapers and business papers throughout the year.

#### New Long Carriage Royal Typewriter

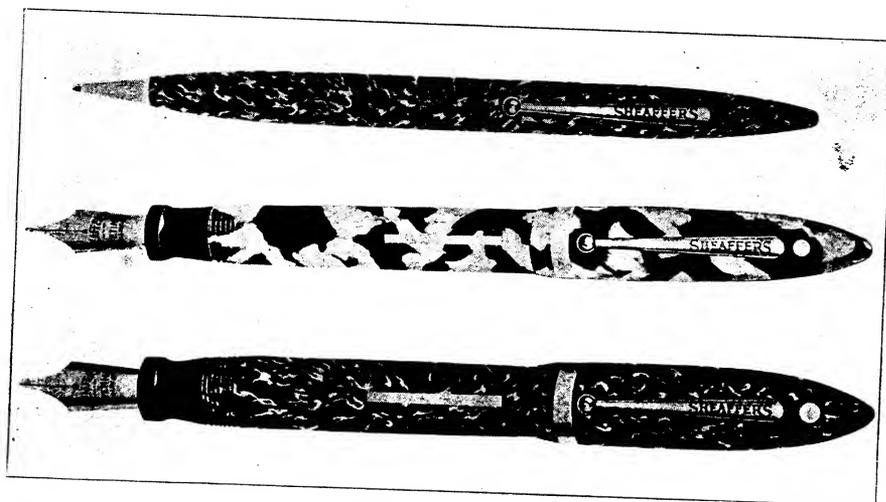

A segment shifting long carriage Royal typewriter is now among the products of the Royal Typewriter Company, New York, N. Y. After several years of research into the design and construction of long carriage machines this company contributes to the typewriter industry a machine designed to utilize the long carriage and still retain lightness of shift. Although this new product has adopted the segment shift, it remains of characteristic Royal design.

A rigidity of carriage design is one of the outstanding and fundamental objectives reached by this new machine. The carriage rail and ball bearing raceway is virtually a part of the original framework structure, since it is cast in fast in brackets which are a part of the general frame casting. The raceway on which the ball bearing carriage moves is so securely locked to the rail brackets that it is as much a part of the machine as the brackets.

In shifting the type bar segment of the new machine use is made of the Royal geared ball bearing to provide ease of shift and minimum friction. Lightness and steadiness are likewise among the first advantages of the segment shift of this newly designed long carriage machine.

In the construction of the carriage rail, use is made of grooves of hardened and ground tool steel for ball race. This carriage rail is perhaps the longest and heaviest single piece of steel used in typewriter rail construction. Yet by use of the Royal typewriter segment shift the carriage does not enter in to the shift process and therefore offers no resistance to the operator.

On the long carriage rail moves the longest of Royal carriages, by which a writing line from one end of the

SHEAFFER "BALANCED" FOUNTAIN PENS AND MECHANICAL PENCIL
